PERSONAL

I consider myself to be a dynamic and passionate professional with proven experience in design and documentation in all project phases for private-sector clients.

In 2015, I successfully completed my 5-year Bachelor of Architecture degree from the illustrious Monterrey Institute of Technology and Higher Education, in Queretaro, Mexico. The skills acquired during my undergraduate studies enabled me to work for 5 years at the multidisciplinary architecture & design firm IEarquitectos, which provided a platform for me to gain valuable experience in the completion residential & commercial developments.

In 2019, I left Mexico to pursue a Diploma of Interior Design at ISCD, Sydney Australia to gain further exposure and complement my strong foundational knowledge in Design. In 2020, I started working as a freelance Architect & Interior Designer to provide a complete package of design services which included technical drawings, 3D visualizations, schedules and other design documentations.

I am currently looking for the opportunity to work on larger scale projects at an international level as I strive to continually learn and improve through new challenges.

PROFESSIONAL EXPERIENCE

Senior Architect & Interior Designer

IEarquitectos, Querétaro, México

2020 - Present

IEarquitectos is a multidisciplinary architecture and design firm based in Mexico, with over more than 30 years of experience. It is a family-owned business renowned for delivering fresh and innovative design solutions while maintaining a balance between the quality of design and functionality, through an architectural language that adapts to the lifestyle of their clients and the needs of the specific project. The firm specialises in the design and construction of high-end residential and commercial projects. As a growing company, my role involves undertaking all stages of residential, commercial, office, and healthcare projects.

key responsibilities:

- Collaborate and conduct regular meetings alongside the owner of the firm with clients to present design ideas, select and specify products, and placement solutions that fit the customer's brief.
- Designed, and produced all documentation as well as conducting weekly site supervisions of two Diabetes Medical Clinics, one International Office Renovation, and 7 Residences in the city of Querétaro.

Freelance

Sydney, Australia. - Querétaro, México

2020 - Present

Work independently to provide design consultation for clients and companies in Australia and Mexico. Executed an Interior Design Proposal for an apartment renovation located in Chalmers St in Sydney. Developed several projects in Mexico such as: a Real Estate Office, a Coworking Office, a Pet Crematorium, a Take-away Restaurant, and one Residence.

key Responsibilities:

- Developed client briefs, mood boards, sketches, technical drawings, detailed cabinetry drawings, 3D modeling, high-quality renders (interior & exterior), detailed specifications in FF&E Schedules, sourcing materials, and quotes.

Junior Architect / Drafter

IEarquitectos, Querétaro, México

2017 - 2018

Responsible for running multiple residential projects simultaneously.

key Responsibilities:

- Formulated Design ideas, developed preliminary sketches, 3D visualizations, schedules, quotes, and documentation packages such as Tender and Construction.
- Collaborate closely with architects, engineers, and stakeholders to ensure adherence to building specifications and industry regulations.
- Liaise with local authorities to obtain council approval and construction certificates.
- Administrate daily site visits to provide technical knowledge and support to ensure the project is completed to a satisfactory standard.
- Prepare weekly job status reports to facilitate good time management and prioritisation of workload/deadlines.

Architectural Draftsperson

IEarquitectos, Querétaro, México

2015 - 2017

Responsible for the documentation of residential projects. My roles and responsibilities included but were not limited to the following:

- Measuring, photographing, and documenting existing site conditions.
- Prepare presentations and contract packages alongside project lead using different software.
- Produce technical drawings in AutoCAD/ArchiCAD in accordance with the local building codes and legislation.
- Interpret and represent the ideas of clients and architects into photo-realistic 3D renderings and animations.

EDUCATION

Bachelor in Architecture

Instituto Tecnológico y de Estudios Superiores de Monterrey. Querétaro, Mexico.

2009 - 2015

International Workshop

Illinois Institute of Technology. Chicago, U.S.A.
